Places student are designated to have a practical trainings are pointed by University

❖ SUMMER PRACTICAL TRAINING

Summer practical training covers 180 hours, including:

- a) Physical therapy practical training - 100 hours,
- b) Clinical practical training - 80 hours.

SUMMER PRACTICAL TRAINING- ORGANIZED INDIVIDUALLY!

1. The students individually organizing practice in their chosen subject, in Poland or in another country, must obtain the consent of the tutor. In this case, there must be an agreement on the implementation of individual professional practical training between the University and the unit in which the practical training is to take place.
2. The agreement referred to in section 1 must be prepared and signed by the supervisor of the whole practical training on behalf of the President of the University.
3. Practical trainings take place in entities that meet the criteria, in accordance with the regulations and framework practical training program adopted by the relevant council departments.
4. A person who has direct supervision over first year students at the place of training must have at least a Master's degree in Physiotherapy, Rehabilitation, or be a doctor specializing in Rehabilitation. A person who has direct supervision over second and third year students must have at least a Bachelor's degree in Physiotherapy or Rehabilitation.

The student individually organizing practice in their chosen subject, in Poland or in another country must deliver appropriate information (address, e-mail, phone number, etc.) about unit in which the practical training is to take place.

It should be done **not later than by May 15** of the current year. After this date students will be obliged to do a practical training in Poland in a place designated by the university.

Framework practical training program for second year students of the Physiotherapy Program

Practical training during the academic year
